

PERARULALAN V

Aspiring Software Engineer

📍 Trichy, TamilNadu 📞 6385274522 @ perarulalan01@gmail.com

Profiles

[in perarulalan-v](#)

[perarulalan15](#)

[Perarulalan15](#)

Skills

Programming

Python, Java

Frameworks

Spring Boot

Backend

REST API

Databases

PostgreSQL

Tools

Git, Github

Education

Saranathan College Of Engineering, Trichy

November 2021 - April 2025

Artificial Intelligence and Data Science

B.Tech

CGPA : 8.01/10.0

- Maintained **consistent** academic performance with zero backlogs.

Internship

Propeller Technologies

May 2024 - July 2024

ML Intern

Trichy

[Propeller Technologies](#)

- Developed computer vision models, including YOLOv8 and Faster R-CNN, achieving 95% accuracy in detecting lumpy skin disease in cows, enhancing early disease intervention.
- Engineered and implemented models for insect classification and detection, optimizing accuracy through large-scale data processing and model training.
- Collected, annotated, and augmented extensive datasets, applying advanced data preprocessing techniques to improve model robustness and performance.

Projects

Flashlearn - Intelligent Learning with AI-Generated Flashcards

April 2025

[Flashlearn](#)

- Built an **AI-driven learning assistant** that converts PDFs/books into summaries and flashcards for faster revision.
- Implemented **NLP models with Django + PyTorch** to deliver scalable backend performance.
- Designed a **responsive UI with Django**, enhancing knowledge retention for learners.

Chaterly - Personalized Chatbot

June 2024

[chaterly](#)

- Developed a **chatbot system with multiple personalities** (Friendly, Formal, Humorous) to improve user engagement.
- Integrated **Groq's Llama3-8b model** for real-time, context-aware responses.
- Deployed via **Chainlit**, ensuring seamless user interface and smooth backend integration.

Achievements

Solved 200+ problems on LeetCode
